DETAILED ACTION

The following action is in response to the amendment filed for application 10/574,593 on October 31, 2008.

Drawings

The drawings were received on October 31, 2008. These drawings are approved.

Allowable Subject Matter

Claims 32, 43 and 51 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the transmission as claimed, and particularly wherein if a rotation speed difference occurs between the output shafts, a first variable speed-difference-changing torque is applied by the active connection to the first and second planetary gear sets for varying a degree of distribution of the drive torque, between the first and the second output shafts between an upper limit and a lower limit value by an adjustment of a transmission ratio of a continuously variable ratio device, and including the remaining structures of claims 32, 43, and 51, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.
